### **SECTION 3 - HAZARDS IDENTIFICATION**

Combustible liquid and Vapor

#### **Potential Health Effects:**

Fumes from product can be unpleasant, may cause nausea, headache and irritating to eyes, skin, and respiratory tract.

#### **SECTION 4 - FIRST AID MEASURES**

Eye Contact: If this product comes in contact with eyes, Flush eye with plenty of water for at least 15 minutes

and seek medical attention.

Skin Contact: If this product comes in contact with skin, remove material with mineral oil, then wash with soap

and plenty of water.

**Inhalation:** If respiratory discomfort occurs, remove to fresh air. If discomfort continues, administer oxygen

and get medical attention.

**Ingestion:** If swallowed, do not induce vomiting. Get medical attention.

#### **SECTION 5 - FIRE FIGHTING MEASURES**

Flash Point (PMCC): 104°F Minimum

**Dust Explosivity Limits:** Not Applicable.

**Extinguishing Media:** Carbon dioxide (CO<sub>2</sub>), foam, or dry chemical. Water may be used to

Cool containers exposed to heat.

**Fire Fighting Instructions:** Minimize breathing vapors, gases or fumes of decomposition products.

Do not enter any enclosed or confined fire space without proper protective equipment, including self-contained breathing apparatus.

**Unusual Fire Hazards**: When heated above flash point, material will release flammable vapors

which can burn or be explosive in confined spaces if ignited. Do not mix with strong oxidants such as liquid chlorine or concentrated oxygen.

## **SECTION 6 - ACCIDENTAL RELEASE MEASURES**

Eliminate sources of ignition, and ventilate the area. Add sand or earth or absorb spill with suitable absorbent material and place in a closed container.

## **SECTION 7 - HANDLING AND STORAGE**

Vapors are heavier than air and may travel along the ground or be moved by ventilation to locations distant from the point of material handling. To prevent ignition, avoid smoking, keep away from heat, open flames and sources of static or electrical sparking. Use explosion proof motors and equipment. Tank trucks or other containers should be grounded and/or bonded when the material is transferred.

Avoid prolonged or repeated inhalation of vapors or spray mists. Avoid prolonged or repeated skin contact. Adhere to good hygienic practices. Avoid open flames. Use with adequate ventilation.

Store in a cool, dry place, out of direct sunlight and away from heat, sparks, and flame.

Health studies have shown that many petroleum hydrocarbons pose potential human health risks which may vary from person to person. As a precaution, exposure to liquids, vapors, mists or fumes should be minimized.

## **SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION**

Respiratory Protection: Use supplied-air respirator in confined areas or with vapors in high concentrations.

**Ventilation:** Local Exhaust: In enclosed areas. Special: None

Mechanical: In enclosed areas. Other: None

Eye Protection: Safety glasses or face shield for liquid material.

Protective Gloves: Solvent impervious gloves.

Other Protective Clothing Equipment: Long sleeves and impervious clothing to protect against splashing.

Work/Hygienic Practices: See Section 7.
